EXPERIENCE

Alecado Systems, Remote — Blockchain Developer

August 2022 - PRESENT(END: September 2022) - Internship

In Alecado Systems I'm working on a medical record decentralized application.

PROJECTS

Medical Record — Internship Project

In Alecado system me and my team are building a Dapp which tracks patient medical records which can be only accessed by member medicals. In this project till now I've built the DAO and permission part also I've build Medical and patient profile as a NFT. This project is still in development it's not live yet.

[TokenSwap || Decentralized Exchange](#) — Personal Project

This is a fully custom made decentralized project which is deployed on rinkeby powered by Openzeppelin ERC20 Smart contract. Using this dapp you can exchange dex tokens with eth and eth to dex. [Source Code](#)

Tech Stack Used: CSS, JavaScript, React, Ethers.js, Solidity, Hardhat, Openzeppelin

[NFT Marketplace](#) — Personal Project

Here you can mint NFT buy NFT and sell NFT. This platform is deployed on rinkeby testnet and powered by Openzeppelin ERC721 Smart Contract. This is a custom made platform. [Source Code](#)

Tech Stack Used: CSS, TailwindCSS, JavaScript, React, Nextjs, Ethers.js, Solidity, Hardhat, Openzeppelin, IPFS

EDUCATION

Graphic Arts Institute, Dhaka, Bangladesh — Diploma In Engineering(Computer Science and Technology)

July 2019- Present(END: August 2023)

I'm in my 3rd year of Diploma in Computer Science and Technology

SKILLS

HTML, CSS, JavaScript, React, Nextjs, Ethers.js, Solidity, Hardhat, Openzeppelin, EVM, Ethereum, IPFS, NFT, Token, Java, C, Python

Extra-curricular Activity

ICT Secretary

Graphic Arts Institute Rover Scout Group

LANGUAGES

English, Bangla, Hindi, Urdu
